

ClearCorrect™

The most affordable &
doctor-friendly alternative
in clear aligners.

ClearCorrect's simple, **easy-to-use** clear aligner system delivers great results with **effective** movements, thanks to our unique Compliance Checkpoints™ and phase-based delivery system.

You'll also receive on-demand **support** throughout each case from our friendly, helpful customer service and tech support teams.

These features are included with every case, along with a lab bill about **40% lower** than the competition. Call today to sign up for a workshop, webinar, or e-course.

I switched to ClearCorrect over one year ago and the switch-over has been wonderful. Having treated over 1400 cases with your competitor, I felt the transition was relatively smooth. I have already started over 120 patients with ClearCorrect! As I started new cases, I told the patients I switched—not a single patient refused the switch. As a matter of fact, I re-treated several of the competitor's cases with ClearCorrect, and they preferred the feel of ClearCorrect to the competitor's product.
